Opis produktu

Adapter Simagic QR-A do baz Alpha EVO umożliwia montaż kierownic firm trzecich i obsługuje rozstawy mocowania 50 oraz 70 mm.

Wheelbase

Designed for Alpha EVO. Compatible with Third-Party Wheels.

467g Lightweight Design, Strong and Agile

Integrated lightweight quick release design reduces weight and enables faster force feedback response.

CNC-machined from forged aluminum alloy for a durable, stable structure.

50/70mm Universal Mounting, Flexible and Hassle-Free

Evo is not just a slogan. An all-new generation of wheelbase. Ultra-Low Inertia servo Motor, Zero-Cogging Tech, higher functionality and wider compatibility. Plus an all-new 21-bit encoder for better fidelity and road feel than ever.

Reliable and Smooth Connection

Built-in USB port enables third-party wheels to connect directly to the Alpha EVO Wheelbase with plug-and-play functionality.

Official Suggestion: Use Short Cable Connection.

We strongly recommend using a short cable to ensure stable output and enjoy the best experience.

Product Specifications

Officially Supported Compatible Steering Wheels

EAN: 6975472779508
