Opis produktu

AENO EK5 Electric Kettle

Minimum space, maximum utility.

12 000+ fast boilings — STRIX technology

Powered by the advanced STRIX controller, this kettle guarantees over 12 000 precise, fast boilings with consistent performance and automatic safety shut-off. Its durable design ensures long-lasting reliability while protecting internal components, giving you worry-free daily use. Perfect for households that demand both speed and dependable quality every time you boil water

No plastic contact with water — glass eco-bowl

Enjoy pure, natural-tasting water thanks to the eco-friendly glass bowl that keeps water completely free from plastic contact. Resistant to heat and everyday wear, it preserves flavor while being easy to clean. Ideal for health-conscious users, it combines safety, style, and sustainability, making every cup taste fresh and free from unwanted odors

Precise temperature setting 40 – 100 °C

Achieve perfect results for tea, coffee, and culinary tasks with fully adjustable temperatures from 40 °C to 100 °C. The precise electronic control eliminates guesswork and ensures consistent results every time. Whether it's delicate teas, coffee, or cooking needs, you'll enjoy perfectly heated water tailored to every recipe and preference

Perfect for preparing baby formula

Make baby feeding simpler and safer with precise temperature control tailored for formula preparation. Avoid overheating while ensuring water is at the ideal warmth for your little one. Quick, reliable, and stress-free, this kettle gives parents confidence, making early mornings and nighttime routines easier and more reassuring for both parent and baby

Keep Warm function

The Keep Warm feature maintains your desired water temperature for extended periods, so hot water is ready whenever you need it. Perfect for busy households or multiple tea and coffee drinkers, it reduces repeated boiling, saves time, and keeps beverages perfectly warm throughout the day, offering convenience without compromise

Stylish & functional LED illumination

Boiling water has never been more visible or stylish. The LED illumination highlights the water level and heating process while adding a modern, elegant touch to your kitchen. Beyond looks, it enhances safety, letting you monitor boiling status at a glance while creating a visually appealing countertop accessory that blends style with function

Optimal capacity: 1.7 L

Boil enough water for the whole family with a generous 1.7-liter capacity. Perfect for tea, coffee, soups, or instant meals, it reduces the need for multiple refills and saves time. Designed for busy households or small gatherings, this kettle ensures you have plenty of hot water on demand while keeping everyday routines simple and efficient

Ultra-quiet operation

Enjoy the calm of a quiet kitchen. This kettle's ultra-quiet design allows you to boil water without disturbing sleep, conversations, or work. Ideal for early mornings, late nights, or shared spaces, it combines powerful performance with gentle, low-noise operation, letting you enjoy hot water whenever you need it in total peace

360° power base

The 360° rotating base makes placement and handling effortless from any angle. Perfect for left- or right-handed users and small kitchens, it allows smooth, convenient use in tight spaces. Whether pouring or refilling, you'll enjoy flexible positioning and easy lifting, bringing comfort and practicality to everyday kettle use

Built-in limescale filter

Keep water clean and tasting fresh with the built-in limescale filter. It traps mineral deposits before they reach your cup, ensuring smoother drinks and reducing maintenance. Ideal for hard water areas, this filter prolongs the kettle's life while delivering pure, high-quality water with minimal effort — every time you boil

Water level indication

The clear water level markings let you measure the exact amount needed, saving energy and time. Perfect for recipes, multiple beverages, or precise portion control, it prevents overfilling and spills while making daily preparation faster and safer. Every cup is perfectly measured for convenience and efficiency

Cord winder

Keep your kitchen tidy with the integrated cord winder. Adjust cable length or neatly store it away, reducing clutter and eliminating tangles. It's a smart design solution for organised countertops, giving your kettle a sleek, streamlined look while improving safety and ease of storage

Auto power-off — boil-dry & overheat protection

Boil water safely with automatic shut-off and boil-dry protection. This feature prevents overheating, conserves energy, and extends the kettle's lifespan, giving you peace of mind during daily use. Safe, reliable, and worry-free, it's perfect for busy households, ensuring excellent performance without constant supervision

Perfect match with AENO TS1W toaster

Pair it with the AENO TS1W toaster for a stylish, coordinated kitchen setup. The matching design adds elegance while providing practical synergy for everyday breakfasts, snacks, or hot drinks. Together, they create a polished, functional space where performance meets modern aesthetic for an effortless, visually cohesive kitchen experience
