### Opis produktu

#### Car Charger OnDrive 24

When you're on the move, staying powered up should never be a worry. The OnDrive 24 delivers a stable 24W of total output, split evenly across two USB(A) ports. Each port provides 12W, allowing you to charge two devices simultaneously at optimal speed. Charge your smartphone, GPS navigator, dashcam, or your passenger's tablet — this is a practical solution for both solo drivers and families.

Safety is built into the design. The charger features short-circuit protection, helping to prevent damage from sudden power fluctuations and keeping your devices safe at all times. The blue LED light indicator shows when the charger is working and gives you instant confirmation without being distracting at night.

Despite its strong performance, the OnDrive 24 is very compact. Measuring just 26.5 × 26.5 × 61 mm, it's small enough to fit in the lighter socket while still being easy to remove. The durable PC shell is resistant to heat and wear, making it reliable for daily use over long periods. With its combination of dual-port convenience, smart protection, and sturdy build, the OnDrive 24 is a dependable travel companion for every trip from quick errands to cross-country drives.

---

## Fast Dual Charging, 24W Total Output

Charge two devices at once with up to 24W of combined power, keeping your phone, GPS, or tablet ready no matter how long the drive.

## Built-In Safety & Short Circuit Protection

Smart safety features guard against short circuits and sudden power surges, ensuring your devices stay safe while charging.

## Clear Status, Subtle LED Indicator

A soft blue LED light shows the charger is active; it's easy to see at a glance without being distracting in the dark.

## Dual USB(A) Ports & Universal Compatibility

Equipped with two USB(A) outputs (12W each), the OnDrive 24 supports a wide range of devices, making it practical for drivers and passengers alike.
