Opis produktu

Power bank OnPower 104

Stay on track with all of your tasks with the OnPower 104, a powerbank created specifically for those who value preparedness and flexibility. This compact solution delivers 10,000mAh of energy to keep your devices ready for the busiest meetings, cross-city commutes, and more.

There's no need to deal with tangled cords and missing adapters. To make your routine run smoother, OnPower 104 has both USB(C) and Lightning cables in a slim, frosted case, which makes charging both Android and iOS devices effortless. With Power Delivery support up to 20W, your smartphone will power up rapidly, as the USB-A port delivers ample energy for wireless headphones, tablets, and other devices.

This powerbank isn't just for backup: it's an intelligent, multi-device energy management solution. With a fine-grain texture and a modern matte finish, it maintains comfort in everyday use. Besides, OnPower 104 is approved for airline carry-on and made for the pace of professional life. Wherever work takes you, rest assured your devices are always ready to go.

Dependable 10,000mAh Power

Enjoy reliable and lasting energy for your devices to stay charged throughout the busiest days.

Rapid 20W PD Charge

Get back to your tasks without interruption. Power Delivery charges your phone to 50% in just 30 minutes, saving time and making sure you don't lose track of what matters.

Built-In USB(C) & Lightning

Say goodbye to the endless search for cables. Integrated USB(C) and Lightning options make charging devices effortless.

Wide-Ranging Compatibility

This powerbank can charge nearly anything. Your iPhone, Android, tablets, or accessories will get all the power they need via USB(C), USB(A), or Lightning.

Charge Two Devices Together

Power two devices at the same time with both built-in and external ports. This is the solution for multitasking at home, work, or on-the-go.

Slim & Airlines Friendly

Designed with convenient travel in mind, the lightweight build of this powerbank meets airline regulations for carry-on, making it perfect for any trips on your agenda.

Fast USB-A Output

It's just as easy to charge older devices. The USB-A port delivers up to 22.5W of power, delivering fast charging for headphones, tablets, and other gadgets.

Frosted Fine-Grain Finish

A frosted texture and sprayed finish of this powerbank promise both comfort and resilience in everyday use.

Integrated, Effortless Charging

Everything you need is built in: there are no tangled cables or missing adapters, so your charging experience is streamlined and straightforward.

Ultimate Everyday Companion

No matter what your plan is, OnPower 104 is always ready to keep your devices powered up and within reach.
