Opis produktu

Dokanałowe słuchawki CANYON CNS-TWS14B w kolorze czarnym, z łącznością bezprzewodową, z czasem pracy Min 6 h | do 7 h, z wbudowanym mikrofonem.

Next-Gen BT 5.4 Connection

Built on BT 5.4 technology, the headset maintains a stable, energy-efficient connection within a 10-meter range. It minimizes signal drops and delivers smooth audio streaming and consistent call quality even in device-dense environments.

Enjoy 6-7 hours of music or at least 5 hours of calling on a single charge. The power management system ensures reliable performance throughout the day without frequent recharging.

Up to 7 Hours of Continuous Playback

The integrated dual-mic system captures voice accurately while reducing surrounding noise. This results in clearer conversations anywhere you are.

The integrated battery level indicator makes it easy to check the remaining power. Monitor charge status directly from your connected device and avoid unexpected shutdowns.

Dual Microphone Call Clarity

Engineered to deliver deeper low frequencies with balanced mids and highs. You get fuller, more dynamic sound across music, podcasts, and video content.

The ergonomic ear-clip design distributes pressure evenly for a secure and barely noticeable fit. Suitable for extended wear without discomfort or in-ear fatigue.
