Opis produktu

'Eight' power cord 3.0m AK-RD-02C Copper

The Akyga® AK-RD-02C power cable is a **3-metre-long** cable, designed for efficient powering of low power consumption devices (up to 2.5 A). It is made of high quality copper, which guarantees reliability and efficiency in energy delivery.

At one end, the cable features an **IEC C7 connector**, also known as a 'figure eight', which is commonly used in various types of electronic equipment, including radio receivers, laptop power supplies, DVD players and other audio-visual devices. The other end of the cable is terminated with a **CEE 7/16 plug**, also known as a Europlug. This connector is a European standard, providing a stable and safe connection to electrical sockets.
