AMD Ryzen 7 5700X (3.40 GHz, 36 MB, 65W, AM4) Box

Cena brutto	1 326,67 zł
Cena netto	1 078,59 zł
Dostępność	Dostępny
Czas wysyłki	24 godziny
Numer katalogowy	BK-002157
Kod producenta	100-100000926WOF
Kod EAN	730143314275

Opis produktu

LEADERSHIP PERFORMANCE FOR PC GAMERS

AMD Ryzen™ 5000 Series processors deliver maximum performance, whether you're playing the latest games or designing them.

THE WORLD'S FASTEST PC GAMING PROCESSOR

AMD continues to lead the industry in gaming innovation, delivering the world's first gaming processor with performance-boosting chip stacking. AMD Ryzen™ 7 5800X3D processors with AMD 3D V-Cache™ technology boast an unprecedented 96MB of L3 cache, so you can game in 1080p up to 15% faster.

DESIGNED TO WIN

Play the most demanding games and power through 3D or video rendering with AMD Ryzen™ 5000 Series desktop processors. They deliver game-changing performance with up to 16 cores, 32 threads, boost clocks of up to 4.9GHz, and up to 100MB of cache on select processors.

BREAKTHROUGH TECHNOLOGY FOR FASTER GAMING

Get an edge in the game with advanced technologies from AMD like a Precision Boost 2 and Precision Boost Overdrive. Performance meets efficiency in the 7nm "Zen 3" core at the heart of these processors, so your rig stays cool under pressure. With PCIe® 4.0, you can maximize graphics and storage bandwidth.

AN EASIER UPGRADE FOR MORE GAMERS

AMD Ryzen™ 5000 Series desktop processors are drop-in ready for AMD 400 and 500 Series motherboards with a simple BIOS update. They're also ready for tweaking and tuning with Ryzen™ Master. Jump into the game faster when you download AMD StoreMI for HDD storage at SSD speeds.

AMD Ryzen™ 5000 Series processors
